It is learned that bids for carrying a daily mail from Garland to Snowville are being advertised for, and that Garland is making a hard effort to secure the new mail route to Snowville. An earnest effort, however, is being made in this valley to have the mail go from Malad; petitions are being circulated, letters have been written to senators Hepburn and Dubois and Congressman French regarding the matter, and when the greater number of people who will be benefited by a route from this town is brought to the attention of the department, no doubt this one will be accepted.—Idaho Enterprise.

MAKE  
POULTRY  
PROFITABLE

Few things yield better profit at any time for a little attention given than poultry. A little more attention to their condition and you will find them a regular gold mine. Nothing is so good to keep your flocks in condition and to help them to form the egg-laying habit as

OUR OWN POULTRY  
POWDER

We have good poultry food and remedies, but all for the ordinary ailments of poultry and to make them prolific layers, you will find nothing better than this.

Every newspaper wants to publish the news. The better the paper the more prosperous it will be. Local news items are especially hard to run down. How many times have you, dear reader, been approached by a newspaper man for an item of news and told him that you knew nothing of interest. Probably at the time your family were away on a visit or some one from out of town was visiting at your home. Of course you didn't mean to deceive the scribe, yet when you receive your paper you wonder why your family or friends were not mentioned. A good way to avoid all this is to kindly inform us of the facts or drop a note in the post office for the paper. The one item may not amount to much but several columns of such news is the life of a local paper.

W D Lewis, who has filled the position of Chief Agricultural Supt. for the Utah Sugar Co. in the Bear River Valley for some time past, has severed his connection with the company and gone into the coal business at Parke City. He has taken the contract to supply the mines and the people of that city with coal and will superintend the running of the ore wagons at the mines. He is expected home today and will make arrangements to move his wife and family to that city within the next ten days. Mr. and Mrs. Lewis have made many friends here who will regret to see them leave. Our town and county loses an enterprising and useful man in Mr. Lewis' departure as he has been prominent in all matters pertaining to the growth and welfare of the entire community. We wish them success in their new venture.

## Fido Skidooed.

Dot noted catcher of dem dogs  
Was always right on deck,  
A lookin for some dogs vat's got  
No collar on his neck.  
Von day dis week he passed dat house  
Vere lives Mosey D E  
And seed a liddle poodle dog  
Vid no collar on, by gee.  
He vinked his eye and shook his fist  
At Fido yust for fun,  
And says, "I have you in de yug  
Before de sun goes down."  
But Fido's master he vas dare,  
And heard vat he did say:  
"Now you must eider kill dat dog,  
Or else dem taxes pay."  
So ven dem evening shadows come  
And de vind and rain come down  
He loaded his 22 gattlin gun  
To blow Fido out of town.  
Now Fido he vas smelled a rat  
And runned beneath the house,  
And shaked and trembled all de time  
Like a voman vat seed a mouse.  
His master point de gattlin gun  
In de places vat he been  
And shoot some bullets after him  
And block de hole again.  
But all night long he lay awake  
And vorry much about  
Dead Fido underneath de house  
And no vay to get him out.  
He took a lay-off the next morning and  
searched the town for men and teams to  
assist him in moving the house. Every-  
body was so busy that morning and  
could not come, so he decided to hire a  
force of men and boys to tunnel under  
the building and remove the mutilated  
remains of poor Fido. All day long they  
worked like trojans to dig Fido out—but

Fido smelled another rat  
And vorked a game quite cude  
For he tunneled out mid de oder side  
And for Tremont "skidooed"  
Dem fallars digged and vorked in vain  
To find poor Fido's track,  
But Fido he vas sneaked away  
And never vill come back.  
The last heard of Fido he was going  
south with his tail between his legs and  
the way he dodged his head one would  
imagine he could still hear 22 bullets  
whistling all around him.

## Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation. The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But combined with Epsom's Salts, this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Sheep Laboratories, from this innocuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying. No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

## MARKET REPORT.

EDITOR GARLAND GLOBE:  
Kansas City Stock Yards, Feb. 25, 1907.—The cattle market closed last week in fairly good shape, all classes making a small advance for the week. The run was less than we have been having, and the supply today is again moderate at 11,000 head. Prices today are steady to strong, with cows and country grades showing the most strength, as usual. Fed steers make up a large proportion of the supply, but the aggregate of that class is not excessive, and the supply appears to be slackening up a little each week. Supply of cows and heifers are hardly equal to the demand, and call for country grades is strong at all times, so that the general outlook is good from the sellers standpoint. Top fed cattle here in the last week sold at 6 00 to 6 40, bulk of corn fed steers at 6 50 to 6 50, cows at 3 00 to 4 50, heifers 3 50 to 4 85, a few choice heifers at 4 75 to 5 25, bull 3 00 to 4 15, calves 3 25 to 4 15, stockers 3 75 to 4 60, feeders 4 00 to 5 15. A shipment of Idaho hay-fed steers, 1000 lbs., sold to go to the country late last week at 4 75. Offerings from the range country are scarce lately.

Sheep receipts have been liberal for the past week, and the run is good today at 15,000 head. Prices declined 10 to 20 cents last week, and the market is 10 lower today, but trade is active, and the demand equal to the supply. Receipts have been falling short of those of this period last year, and killers have had difficulty in securing enough for economical shipment of their product, in view of the heavy slaughter of cattle and hogs this month. Good lambs are selling today at 7 95 to 7 25, one lot of good to choice lambs at 7 30 today, similar to the lambs shipped in by Mr. Fulkerson last week, from Prowers, weighing 81 to 84 lbs., and selling at 7 35 to 7 50 on different days. Lambs weighing 65 lbs. or less are selling at 6 65 to 7 00. Yearlings sell at 6 25 to 6 40, wethers 5 25 to 5 50, ewes 4 00 to 5 10. A few feeding lambs sold readily last week at 6 25 to 6 75.

## Dragged Through Mud.

Master Earl Owens, son of J F Owens while out delivering orders Tuesday morning, had an experience that might have resulted in a serious accident had the animal been of the fractious kind. On Factory Street the rig went into a rut and he was thrown out, his leg being caught on the axle. The animal went right along and he was dragged through the mud for quite a distance. W L Wood stopped the animal and released the boy who was covered with mud and somewhat frightened by the experience.

## How to Remain Young.

To continue young in health and strength, do as Mrs. N F Rowat, McDonough, Ga., did. She says: "Three bottles of Electric Bitters cured me of chronic liver and stomach trouble, complicated with such an unhealthy condition of the blood that my skin turned red as flannel. I am now practically 20 years younger than before I took Electric Bitters. I can now do all my work with ease and assist in my husband's store." Guaranteed at Riter Bros. Drug Store. 50c

## Printer's Psalm of Life.

HAVE THEM PAY IN ADVANCE! Tell me not in mournful numbers, Printers lives are only dreams—Statements only help the slumbers Of delinquents, so it seems. Debts are long, and Time is fleeting, Appetite is bold and strong, Wife and children still are eating, But we cannot say how long. Trust no more—no, not another—Trusting is a game of chance, Even tho it be a brother, Have him pay it in advance. Lives of printers all doth show us Just what ours will be one day, If delinquents who now owe us Fall to come up with the pay. Let us then be up and doing, Let there be no game of chance; Have each render when renewing, Pay his dollar in advance.—The Character Builder.

I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life."
